CAD Master Coach – Fact Sheet

Tagline: CAD Made Simple, Designs Made Powerful

About CAD Master Coach

CAD Master Coach is an online learning hub dedicated to making AutoCAD accessible, practical, and powerful for engineers, architects, designers, and students. With clear tutorials, in-depth articles, and hands-on resources, CAD Master Coach helps users streamline their CAD skills and bring professional-quality drawings to life.

About the Founder – Scott Ogren, PE

- Licensed Professional Engineer in Oregon, Washington, and California
- Founder of Ogren Engineering and developer of engineering design tools such as Shearwall Pro and Beam Design Pro
- Adjunct Instructor at the University of Portland, teaching CE201 – Civil Engineering Graphics
- Experienced educator and mentor with a passion for simplifying CAD training and empowering professionals

Quick Facts

Website: cadmastercoach.com

Founded: 2024 (content ecosystem under active expansion)

Focus: AutoCAD training, engineering workflows, and digital tools

Content library: 50+ tutorials in development across commands, workflows, and best practices
